Willie Hoppe dwells on the ABC's of the game - the stance, grip, bridge, stroke, etc., before
going into fundamental shots, and rules to following order to make them easily. The instruction
set forth in this volume is intended not only for those who desire to begin playing after they
have grown up, but for those players who have started out on the wrong foot, those others who
want to improve their game, as well as for the youngsters. This book contains classic material

The chess playing mind does not work like a machine. Selecting a move results from rather chaotic thought processes and is not the logical outcome of applying a rational method. The only problem with that, says International Master Willy Hendriks, is that most books and courses on improving at chess claim exactly the opposite. The dogma of the chess instruction establishment is that if you only take a good look at certain "characteristics" of a position, then good moves will follow more or less automatically. But this is not how it happens. Chess players, weak and strong, don't first judge the position, then formulate a plan and afterwards look at moves. It all happens at the same time, and pretending that it is otherwise is counterproductive. There is no use in forcing your students to mentally jump through theoretical hoops, according to experienced chess coach Hendriks. This work shows a healthy distrust of accepted methods to get better at chess. It teaches that winning games does not depend on ticking off a to-do list when looking at a position on the board. It presents club and internet chess players with loads of much-needed no-nonsense training material. In this provocative, entertaining and highly instructive book, Hendriks shows how you can travel light on the road to chess improvement!

From beloved storyteller and Nobel Prize winner Patrick Modiano, a masterful and gripping crime novel set in picturesque Nice on the French Riviera Stolen jewels, black markets, hired guns, crossed lovers, unregistered addresses, people gone missing, shadowy figures disappearing in crowds, newspaper stories uncomfortably close and getting closer . . . this ominous novel is Patrick Modiano's most noirish work to date. Set in Nice—a departure from the author's more familiar Paris—this novel evokes the bright sun and dark shadow of the Riviera. Modiano's trademark ability to create a haunting atmosphere is here on full display: readers descend precipitously into a world of mystery, uneasiness, inevitability. A young couple in hiding keeps close watch over a notorious diamond necklace known as the Southern Cross. Its provenance is murky, its whereabouts known only to our hero and heroine, who find themselves trapped by its potential value—and its ultimate cost. Deftly Modiano reaches further and further into the past, revealing the secret histories of the two even as the pressurized present threatens to overwhelm them.

The political philosopher Hannah Arendt is well-known as student of state terrorism, police state or Zionism. She also defined with Max Weber the "Jew as pariah" at the time that Theodore Adorno situated "Jews as Gypsies" in world history. In this book Derks studies the main aspects of the "Jewish question" in combination with a "nomadic question"
