Known for its clear language, logical organization, and range of exercises, this versatile manual covers all the material needed for a one-semester laboratory course and can be used with any text. Over 90 exercises are organized into 22 chapters that are suitable for a two- or three-hour lab period. This revision retains Tharp/Woodman's simple, clear artwork, challenging lab report questions, and strong technology integration—including PowerLab, Vernier, and PhysioEx. Now spiral-bound for ease of use, the Tenth Edition increases focus on clinical applications and critical thinking questions.

Every 3rd issue is a quarterly cumulation.

Written in a generic format, this manual can be used with any text and with a variety of laboratory equipment. This lab manual contains 90 exercises organized into 23 teaching units. May be used for a 2-hour or a 3-hour laboratory course.
